

The resurrection of Jesus.....is a totally new way of being.

As Jesus' soul is reunited with his glorified body – baked, so to speak, in the limitless energy of the Spirit – he moves triumphantly into the heart of all creation.

Creation is totally new in the light of the resurrection....the old world of sin has passed away in the destruction of Christ's body on the cross.

The New Creation...is the first day of eternal life, in union with Christ, a day that will never end.

(Thomas Keating - The Mystery of Christ)

Easter blessings to you from the Core Team of COI
